AUGUST 2020

Water Restrictions

Water restrictions go into effect when the aquifer is below the 660' on a 10 day average. A reminder of the water restrictions to follow when they are in the respective stages.

You may use drip irrigation, soaker hose, hand-held hose or bucket (5-gallon or less container) during any day of the week between the hours of 7 a.m. and 11 a.m. and between the hours of 7 p.m. and 11 p.m. during Stages 2 and 3. **Stage 1 water allowance varies from Stages 2 and 3.** A hand-held hose may be used during any day of the week at any time.

Stage 1 – Landscape watering using automatic or manual irrigation systems is permitted only **once a week before 10 a.m. and after 8 p.m.**

Stage 2 – Landscape watering using automatic or manual irrigation system is permitted only **once a week between the hours of 7 a.m. and 11 a.m. and between the hours of 7 p.m. and 11 p.m.**

Stage 3 – Landscape watering using automatic or manual irrigation system is permitted only **every OTHER week between the hours 7 a.m. and 11 a.m. and between the hours of 7 p.m. and 11 p.m.**

Stage 4 – Stage 3 Landscape irrigation restrictions remain in effect. When Stage 4 is in effect, the City Council may hold emergency sessions to consider other restrictions on water use or to allow special uses.

Remember the last number of your address determines what day you are able to water.

Last number of your Address	Watering Day
0 or 1	Monday
2 or 3	Tuesday
4 or 5	Wednesday
6 or 7	Thursday
8 or 9	Friday
Multi-Family premises, schools, churches and commercial users	Wednesday

BRIEFS

FY21 Proposed Budget

City Council and staff have been working hard on establishing the FY21 Annual Budget

- Proposed Budget will be presented to City Council on Monday, August 10th
- Document will be available on Tuesday, August 11th on the city website at www.alamoheightstx.gov/departments/administration-and-finance/financial-reports/
- Public Hearing will be held on Monday, September 14th.

PICKUP SCHEDULE

How to Protect Yourself Against Debit and Credit Card Skimmers

Here are some ways you can decrease your chances of being victimized by a skimmer:

1. Pay inside (preferably with cash). The easiest way to make sure that you avoid a skimmer is to pay inside the gas station. Unless the owner of the gas station is involved in the scam, it is highly unlikely that you'll encounter a skimmer device inside the building.
2. Don't use a traditional or prepaid debit card at the pumps. If you do and gas station predators skim your card, they will have access to all of your cash. And, as we've seen in this case, the issuer of your card might not be willing to aggressively defend you (and a consumer advocate may or may not be able to get your money back).
3. Look for the security seal on the pump. Many gas stations are installing security seals to combat skimmers. Try to visit only pumps with these seals. If the security seal is broken or damaged, that's another clue that there could be a skimmer on that card reader. Report it and move on.

Don't forget to participate in Census 2020. It's not too late. You can still submit your response via online at www.my2020census.gov, mail, or telephone dialing 844-330-2020.

Beginning August 11th through October 31st, the Census Bureau will start sending census-takers into communities, who will go door-to-door to collect data and ensure that everyone in our community is counted.

The U.S. Census Bureau announced that it will begin emailing households in low-responding areas to encourage them to respond to the census. The email message will come from 2020census@subscriptions.census.gov and will give recipients the option to opt out of receiving future messages. This contact method will help increase response rates and reduce the need for in-person follow-up.

It's quick and easy, everyone counts!
